DEVICE DISCLAIMER

The device is to be used as a Biofeedback device. It is designed for stress reduction, relaxation training and muscle reeducation. The device does not diagnose anyone. The system is calibrated to measure the fine and subtle electrical reactions. Trained staff should use this device. No claims are made of the system or its results and nothing that the practitioner does is meant to either diagnose or treat any illness or disease, and is not intended to replace any treatment from a medical doctor. One should always follow the advice of their doctor.

CONTENT DISCLAIMER

The information contained in this manual is intended only for the education of Quantum Biofeedback Technicians and Specialists. The authors do not advocate the use of any particular healthcare protocol, usage of remedies, or combination thereof. The authors do not warrant the effectiveness or safety of any protocols or remedies contained in this manual. The information contained herein shall not substitute for consultation with a physician or other qualified healthcare provider. Any attempt to diagnose and treat an illness should be done under the direction of an authorized healthcare professional.

USE OF PROTOCOLS

The stress reduction training exercises contained herein are not designed to run for periods exceeding approximately one hour and with more frequency than once per week. Practitioner judgment should be exercised in determining the length and frequency of running the stress reduction training exercises.
